Problem Statement

TO HAVE A COMMON SHARED APPOINTMENT PLATFORM WHERE THE MEMBERS OF **SPASTICS SOCIETY OF KARNATAKA (SSK)** AND MEDICAL PROFESSIONALS CAN SEE AND TRACK APPOINTMENTS FOR CHILDREN WITH DISABILITIES.

THE OBJECTIVES INCLUDE

- ABILITY TO CATEGORIZE AND VIEW APPOINTMENTS BY DATE/DAY AND BY PROFESSIONALS.
- MAINTAINING BENEFICIARY AND MEDICAL PROFESSIONAL'S DATABASE INCLUDING BASIC DETAILS.

Understanding The Problem

Database Maintenance	Transparency	Accessibility
<p>Having to maintain similar records manually.</p> <p>Difficult access to the records.</p> <p>Led to time consuming solutions</p>	<p>Records being maintained by certain SSK members.</p> <p>Scheduling of appointments made difficult.</p> <p>Made Coordination among members difficult.</p>	<p>Regular updation of appointments wasn't possible.</p> <p>Cancellation of an appointment from either side would be inconvenient.</p>
